1. The following is an examiner's statement of reasons for allowance: The blend of asphalt, oxidized polyethylene and block copolymer if at least one conjugated diene and at least on monoalkenyl aromatic hydrocarbon has not been found during an updated search. The product by process claims are allowable because adding the polymers in a pellet form results in unexpected advantages. See page 4, lines 17-19 and page 5, lines 12-25 of the instant specification. Claim 40 includes all the limitations of claim 39.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
